

Insect Collection

The insect collection will include 50 different kinds of insects from at least 8 orders. Different insects include:

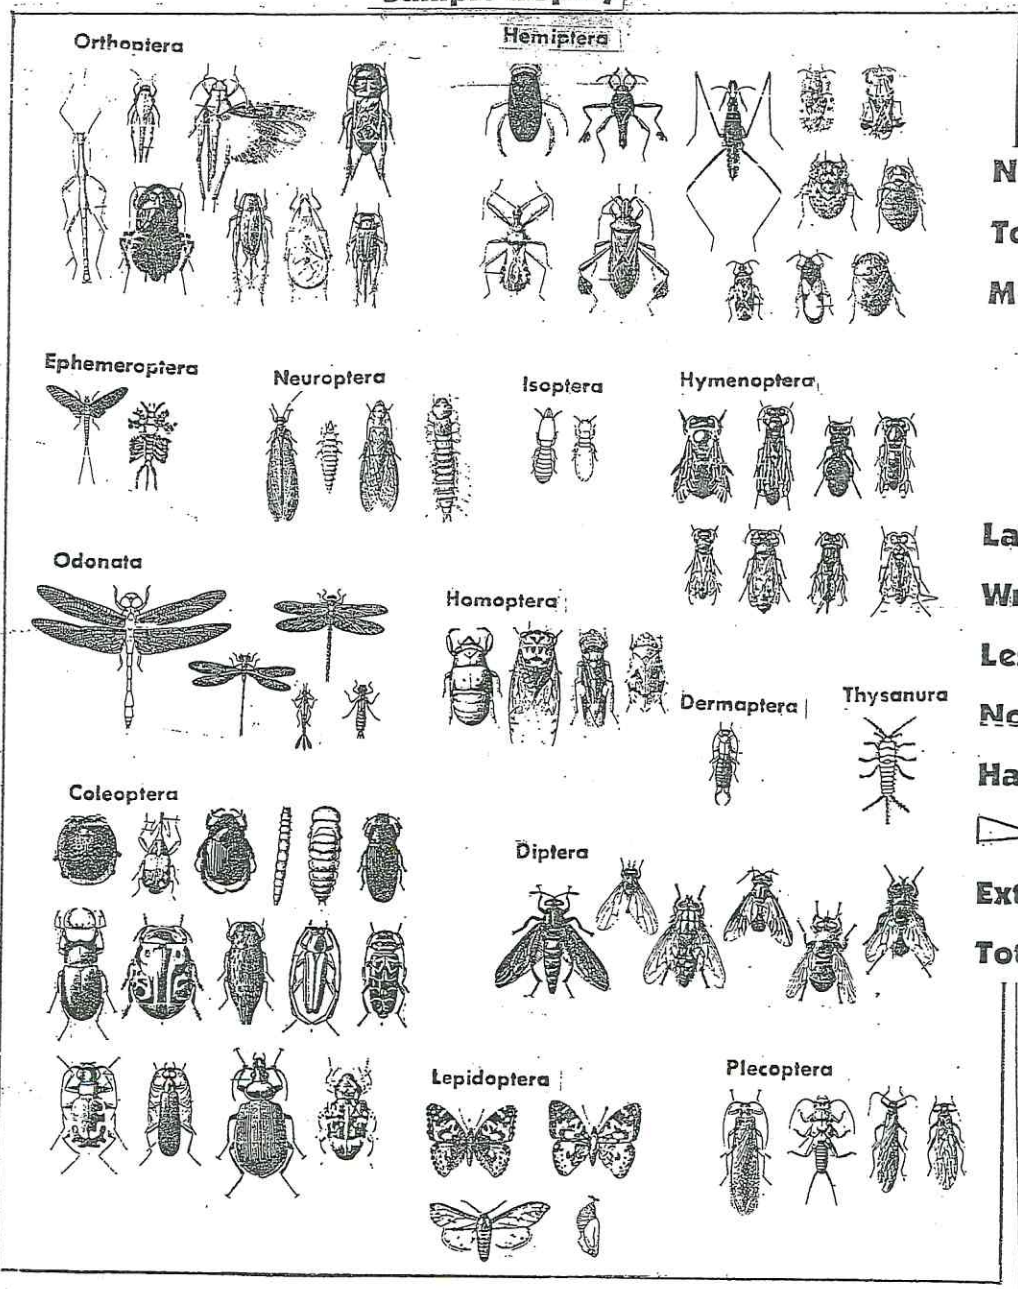

- a. males and females (where it is possible to tell)
- b. different stages of a particular insect

Each insect will be worth 10 points each--total of 500 points

a. 3 points for the insect; b. 2 points labeling; c. 5 points mounting correctly

The collection has to be displayed in a box (cardboard or wooden) with a cover over it. The insects will be arranged according to the order it belongs in.
